## PHYSICIAN DIES OF WOUNDS

**Dr. Coffey, of Stonewall, Succumbs to Stabs Inflicted by Fellow Physician -- Preliminary Trial Set for September 2.**

As a result of the knife wounds inflicted by his neighbor doctor, Dr. Coffey, of Stonewall, died between 8 and 9 o'clock Wednesday night.

The assailant, Dr. Gid Breco, had been taken in custody the night before. After news of the death a charge of murder was promptly filed against him, and his preliminary hearing has been set for Monday, September 2.

The remains of Dr. Coffey arrived from Stonewall on this afternoon's Katy and were transferred to the Frisco to be shipped to his old Arkansas home.

It is undisputed that the trouble between these men Tuesday at Stonewall arose over a question of professional ethics.

On the theory that Dr. Breco was deliberately the aggressor in the tragedy, and suspicious of certain symptoms developing during the twenty-four hours deceased lingered before death, the government has ordered an examination of the fatal knife by experts in order to ascertain if poison had been designedly applied to the blade. It is said that Dr. Coffey made a dying declaration of a damaging nature concerning his antagonist.

It is reported that friction has existed for some time in Stonewall between Dr. Breco and his fellow physicians. One year and a half ago Dr. Breco came from Van Zandt county, Texas, and located in Stonewall. Henry Kraft, his uncle, and Elb. Andrews, his brother-in-law, arrived today from Texas, called hither on account of his trouble. Mr. Kraft has been district clerk of Van Zandt county many years and was a father to

Dr. Breco in his bringing up.

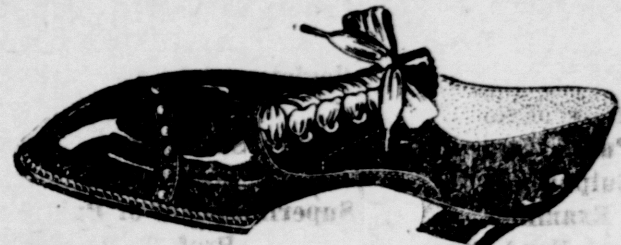

The News man called upon Dr. Breco at the county jail this afternoon, enquiring if he had anything to say for publication. The doctor talked freely of the tragedy. His head was in bandage, showing blood stains, which he said came from wounds inflicted by Dr. Coffey before he had struck a blow. In substance the statement was:

Coffey had called upon Breco's patient, and while there acted unprofessionally. Just previous to the difficulty J. O. Crawford, proprietor of the drug store wherein it occurred, reminded Breco of a bundle of surgical instruments he had left in the rear of the store. Breco's office was over the store. Around the instruments was wrapped a French news paper published in Canada, a paper read by Dr. Breco's relatives (he himself is of French extraction). As he started out with the bundle in his hand he encountered Coffey, mildly mentioned to him his recent unprofessional conduct, whereupon Coffey became abusive and attacked Breco, striking him over the head with some weapon. Then, and not till then, Breco attacked Coffey, using the bundle of instruments in his hand.

Dr. Runyan, of Ada, was called to Stonewall and helped dress the wounds of Dr. Coffey. When questioned by the News man as to his opinion about the presence of poison on the fatal weapon, he scouted the idea. He believes that one of the knife wounds was so deep as to penetrate the apex of the heart, so slightly as not to be ascertainable at first, but in the course of hours caused death.

## HEARING ELECTION CONTESTS

**Burke Loses for State Insurance Commissioner -- Pontotoc's Vote Among Those Questioned -- Other Contests Being Heard.**

Guthrie, Aug. 28.—The state election board today decided the contest of John D. Burke of Guthrie vs. T. B. McComb, of Oklahoma City, democratic nominee for state insurance commissioner in McComb's favor, holding that the board could not go behind the state democratic convention which declared McComb to be the regular nominee.

In contesting Burke, by his attorney, John Hildreth, alleged numerous instances of fraud, which if corrected would elect him by a majority of 856 over McComb. He cited figures as follows in attempting to prove that McComb was benefitted by alleged illegal voting in the counties named.

In Pontotoc county 1,569 democratic votes were cast at the delegate elec-

tion on November 6, last, whereas at the democratic primaries on June 14, last, there were 2,768 votes cast, or more than all parties cast at the delegate election.

In Jefferson the democrats cast 778 votes in November and 2,768 in June, or more than all parties in the delegate election.

In Murray county the democrats cast 900 votes in November and 1,702 in June, more than all parties in the November election.

In Stephens county they cast 1,366 in November and 2,101 in June; in Carter county 2,312 in November and 3,014 in June; in Bryan county 2,611 in November and 3,400 in June and in McClain county 1,018 in November and 1,266 in June.

## REPUBLICANS AN PROHIBITION.

As a sample of republican duplicity and moral cowardice when it comes to meeting the vital issues of this campaign the following inside history of the Tulsa convention, obtained from one of the most able and active members of the resolutions committee, is very much to the point and illustrates most clearly the floundering policy and insincere attitude of the present leaders and carpet bag cohorts of the "rule or ruin" gang that are demanding the state offices as the price of statehood.

The Tulsa platform was drawn in the main by Frank Greer who had incorporated in his draft of that instrument the following plank on local option or prohibition at the request of the anti-prohibition leaders:

"17. We favor prohibition where demanded by the people of any community. Local option has proven by years of experience to be the highest form of prohibition, promoting the truest temperance. All laws are forced by local municipalities within the state and their strict enforcement depends on the sentiment of the people of the locality. We therefore oppose the separate prohibition clause as submitted with the present constitution. Let the people of each community attend to the matters purely local. As the states are the better custodians than the federal government of interests wholly within the state, so the people of the county are the best custodians of county interests, and the people of a precinct are the best custodian of precinct interests. We declare for local option and believe the same laws and regulations should be made to apply to the whole state as soon as possible by every honorable means, with full faith and confidence in the wisdom of the people to properly govern themselves."

After strenuous debate and on the insistent demand of ex-Governor Ferguson, and Bird McGuire, candidates for congress, and at the urgent request of Governor Frantz the clause was stricken out by a vote of 33 to 25 and the republican platform was left wholly silent on this important question.

For days before the convention met the anti prohibitionists were hopelessly boasting that such a plank would be in the platform—and they had been promised by the leaders that it would be—but the pleasure of the candidates who had staked their folorn hopes of in election on their agility in dodging he live issues were too strong and those thirty-three members of the committee on resolutions were able as a result to keep that great convention of nearly 1,600 delegates from expressing an opinion either way on the question of state-wide prohibition.

The logical deduction from this action of the committee is that the republicans, as a party, has no convictions on this question which has aroused the most bitter antagonism between the prohibition and local option partisans and which has been submitted to the people for a decision. The elimination of this plank from their platform stamps the present leaders of that party as wholly insincere and cowardly when it comes to dealing with political or moral propositions that require stamina and principle to decide. Their attempt to curry favor with both sides of this great question they have only succeeded by their cowardice and double dealing in offending and disgusting everybody.

## To the Voter of the 23rd Senatorial District:

I am a candidate on the republican senatorial district, composing the counties of Pontotoc and Seminole.

I respectfully solicit the vote and influence of all persons who believe in sound government, economical administration and a square deal for every person, regardless of his political affiliation or condition in life.

My residence in the Indian Territory for thirteen years and practical knowledge of the conditions in this part of the new state and the needs of our citizens, amply qualifies me for the important trust which I seek.

If you are in favor of a "square deal" and the enactment of laws, that will stand as a monument to the future welfare of our new state, I will thank you for your vote and influence.

Very respectfully,  
137-tf U. G. WINN.

Col Chas. Hunter's committee has evidently concluded this time that no matter which horn Governor Frantz takes of the prohibition dilemma he is bound to make a mess of it. Whether he admits, as he did at Wilburton, that he is going to vote against the kind of prohibition for Oklahoma that his party fastened up on Indian Territory in the Enabling act, or whether he does as he did at Thomas and as the republican convention did at Tulsa—ignore and evade it—he cannot now satisfy his own party or the partisans of either

side of the prohibition controversy. No one believes now that he has any sincere convictions on this or any other subject at issue before the people, and all parties are suspicious of him. He alone is responsible for being placed in a position politically where he is bound to be "damned if he does and damned if he don't."—Oklahoman.

## A Race that Trots.

In the island of Tierra del Fuego, off the southern most point of South America, there lives a fine athletic race called the Onas. The men are over six feet high, and the women are also well built. What is strange about them is that they never walk, but are always on the trot. The men hunt the guanaco (an animal like the llama) and the rea, or South American ostrich, on foot, bringing them down with arrows or slung stones. A story is told of a European settler who once captured an Ona woman in a raid and took her to the nearest mission station, twenty-eight miles distant. She an, with her boy on her back, along ide her captor's horse all the way, being prevented from bolting by a lasso around her hand. When the ground was too uneven for the horse to trot she shot ahead with the lasso at full stretch.

E. J. Giddings, the silver tongued orator of Oklahoma, will address the voters of Ada tonight.

C. C. Hargis and Judge West, came in from Delburg last night, where they made democratic speeches.

Mr. and Mrs. Sydney Evans of Luxore, Ark., are visiting their cousins, Mr. and Mrs. R. O. Lawrence.

James M. Humphreys of Atoka, republican nominee for district judge, is mingling with Ada voters today.

Rev. T. B. Harrell and S. R. Tolbert went to Conway on a state-wide prohibition mission last evening.

If your grocer does not handle White Wonder Flour have him get it for you. Don't take any substitute. 137-tf

Hon. A. T. West of Lehigh visited Ada again today on his campaigning tour as democratic nominee for district judge.

Dr. Saffarrans was in Francis between trains—or rather between switch engines, since no trains are running that way.

Mr. and Mrs. Geo. Henley, now of Ardmore, arrived this morning for a visit with Mr. and Mrs. J. A. Biles and other friends. Ada is mighty glad to see them again.

## At New Bethel.

The most successful country Temperance rally of the campaign was held at New Bethel Wednesday evening. There is in progress there a revival, which is being conducted by Rev. Shirley and Rev. George. These men gave over their service to E. L. Kirtley and Carlton Weaver in the interest of state-wide prohibition, and each of these gentlemen discussed this question for two hours. The attendance was large and the interest still greater.

At the conclusion of Mr. Weaver's address an expression was asked, concerning the congregation's attitude toward the prohibition issue, and the entire audience stood up, with the possible exception of three men. There were about three hundred people present.

Ada people should ask their merchants for Electra and Sunray oils. They are better than the trust oils. 128-tf

## Frisco Still Embarrassed.

Throughout the day (Thursday) Frisco trains continued to detour via Shawnee on account of the burning of the Canadian river bridge. Local officials say they do not know how long before the bridge will be repaired. All south bound trains are arriving hours behind schedule, and people with urgent business at Francis are having to swing on to switch engines as they ply back and forth.

The wreck on the siding by the ice plant is worse than thought. The switch engine was rescued last night and hauled to the shops; but the wrecker crew are still yanking at the tender and coal car which tumbled into the ditch.

Burn Electra and Sunray oils. They are the best to be had. 128-tf

## Itinerary of James W. Bolen.

The ponderous secretary of war, who was imported into Oklahoma to stampede the voters away from the constitution, made one admission that makes Frantz and the republican platform look even more ridiculous than formally. Taft makes specific assaults upon the constitution, but he also specifically stated that there were some good things in the Okla homa charter. Frantz and his staff of federal official cuckoos have been declaring that the whole document is "rotten" and his platform denounces it as a whole. Taft appears to have read a part of the constitution at least, But Frantz and his cuckoos, when cornered, admit that they are totally ignorant of its many splendid provisions.—Oklahoman.

## Making Stars Go Out.

A high school teacher recently talked to her class of girls on "Ideals," says the Youth's companion. Here is a part of what she said, every line of which you should read and read again and taken seriously to heart:

"It is hard for you girls to realize the subtle influence you have on boys of your own age and younger. They idolize you; they depend on you to be innocent, pure, good. You may shrug your shoulders and say that you don't care what this or that boy thinks of you, but you ought to care—and deeply—every time an ignoble act or careless word of yours robs anybody of an ideal which might have lighted him through dark places in his life but for you. He may act the same to you, but ah, 'How little forgiveness counts when a star goes out!' 'Girls, are you making stars go out?'"

## TAFT REALIZES MISTAKE HE MADE

Kansas City, Ag. 29.—"I intended to make the matter plain; I discussed the constitution from a viewpoint of an Oklahoman citizen. I infer that Oklahomans thought I believed the president would veto the constitution, but I meant to convey the impression that he would in all probability approve it."

This statement was made by Secretary Taft after he had frequent unfavorable comments on what the people believed was the meaning of his Oklahoma City speech in criticism of the Constitution. They became so frequent that the secretary deemed an explanation advisable.

## ADA EVENING NEWS.

ADA, IND. TER.

### Justice and Sanity.

There has been a great deal said about the unwritten law, and it is held by many thinking people to justify murder which is indefensible. True, life may be taken at times in self-protection without violating divine or human law, but for a deliberate homicide there is no excuse whatever. It is, of course, exasperating almost beyond endurance to have the home despoiled by a conscienceless monster who bears the guise of man, but courts should deal with him in a civilized community and give him his deserved punishment. When a man takes the law into his own hands and puts an end, with malice aforethought, to one of his fellow beings, he is simply a barbarian, no matter what cause he has for his bloody deed. The young man who slew the supposed wronger of his sister in this city, says the Boston Budget, received a just sentence, though there is sorrow that he should have been thrown away his young manhood to become a perpetual prisoner; but his punishment, though severe, was deserved, and it will act as a deterrent on other impulsive young men of fiery southern blood, who might be tempted to follow in his unfortunate footsteps. The case of Judge Loving of Virginia, who was acquitted by a jury of the crime of murder partially, apparently, on the ground of sudden insanity, and partly, no doubt, through a reverence or regard for the unwritten law, is one in which it is widely believed strict justice was not meted out. In all probability, the young man who was shot to death by an irate father did not commit the deed of which he was at first suspected, but even if he did, his slayer, it seems to us, should have paid some penalty for his offence, and not have gone entirely unwhipped of justice. Then we have the story of a mother and son who confessed that they killed a young man because he refused to wed the daughter of one and the sister of the other, thereby breaking a solemn promise that he had made. This was, no doubt, maddening, but the provocation was no excuse for the homicidal act or a good moral reason for their acquittal. When brutes walk on two legs the law of the land, as has been well said, does not allow us to butcher them, and the sooner this is realized by those who claim the unwritten law as a defense the sooner shall we have a return to sanity in the treatment of assassins.

No department of government, certainly none represented in the president's cabinet, is less open to partisan political criticism than the department of agriculture. Sometimes there is a hubbub about free seeds, for which congress and not the department is responsible. Beyond that the complaints are few and the blessings are many. Secretary Wilson says that during the fiscal year just ended the department has made discoveries which will benefit the American people to the extent of millions of dollars—a sum too vast to calculate. Some of these discoveries are patentable, and if the patents were held by the discoverers would make them rich. But all such patents, after being taken out in the name of the inventors, are dedicated to the United States for the common good.

Congress having provided for an increase in the artillery force of the army, 27 new companies of coast artillery are to be formed. These will be stationed at various points along the Atlantic, the gulf and the Pacific. Experience has shown that more men were needed to care properly for the big guns in our forts. The additional companies, with the national guard organizations, which have had very successful tours of duty at the forts, will serve to obviate danger in case of an emergency. The country will have both the guns and the men needed.

Electricity continues to extend its usefulness. New Jersey has found it the most expeditious and humane means of putting an end to stray and useless dogs. Hitherto the dogs have been asphyxiated in a big gas tank. But the society which looks after such things finds this is cruel and by no means infallible. So Plainfield leads off by substituting the electric kennel for the gas receptacle. By this means the canines are sent painlessly and swiftly to death and the how-ows cease from spreading fear of rabies.

A Methodist minister has protested against the use of the Sunday service as a practice hour for students in shorthand, who go to church merely to take down the sermon. It does seem a double offense to break the Sabbath in church.

The presentation of the cross of the Legion of Honor to the composer of "Salome," the opera which shocked New York, will emphasize an impression that the legion is getting to be a somewhat mixed company.

## IN THE NAME OF CHARITY.

Jack London's Story Carries Sting of Truth and Pathos.

"Jack London's famous definition of charity—sharing a bone with a dog when you're as hungry as the dog"—recalls a story about charity," said a magazine editor, "that I heard Mr. London tell at a farewell dinner in New York before he sailed away on the Spark."

"Mr. London said two old men were smoking and drinking together after dinner."

"The host rang the bell and an old woman appeared."

"Confound you, stupid!" said the host. "Didn't I tell you I wanted the Scotch? Take this back, and bring what I asked for, you old fool!"

"Come, come," said the guest, after the old woman had hurried away in a great fright. "Come, come, my friend, don't you think you are rather too sharp with your old servant?"

"Oh," said the other, "she's not a servant. She's only a poor relation I'm keeping out of charity."

"The guest looked relieved."

"That alters the case, of course," he said.—Washington Times.

### It Will Stay There.

"In my family medicine chest no remedy is permitted to remain unless it proves beyond a doubt the best to be obtained for its particular purpose. For treating all manner of skin troubles, such as Eczema, Tetter, Ringworm, etc., Hunt's Cure has held its place for many years. I have failed to find a surer remedy. It cures itching instantly."

R. M. SWANN, Franklin, La.

### Social Rank.

At a country dance in a southern town, when the fiddlers had resigned their bows and taken their places on the platform, the floor manager rose.

"Got yo' partners for a cotillion?" he shouted, imperiously.

"All you ladies an' gemmen dat wears shoes an' stockings take yo' places in de middle ob de room. All you ladies an' gemmen dat wears shoes an' no stockings take yo' places immediatly behin' dem. An' you barefooted crowd jest jig it roun' in de corners."—Youth's Companion.

Laundry work at home would be much more satisfactory if the right starch were used. In order to get the desired stiffness, it is usually necessary to use so much starch that the beauty and fineness of the fabric is hidden behind a paste of varying thickness, which not only destroys the appearance, but also affects the wearing quality of the goods. This trouble can be entirely overcome by using Defiance Starch, as it can be applied much more thinly because of its greater strength than other makes.

### No Doubt About It.

Kind Father—My dear, if you want a good husband, you just marry Mr. Goodboy. I am quite sure that he is really devoted to you.

The Girl—I am truly glad to hear you say so, papa. But are you quite, quite sure?

Kind Father—Positive, my love, positive. I've been borrowing money of him for six months, and he still keeps coming here, so it's all right, it's all right. He loves you!

### For Twenty Years.

Other child remedies have sprung up, flourished for a brief season, then passed away—even from memory—but for twenty long years Cheatham's Chill Tonic has been in the field of action. The reason is simple. It has merit. It actually cures Chills and Fevers while the majority of others merely promise to. One bottle guaranteed to cure any one case.

### What Caused the Lynching.

Out at Stafford the other day a group of farmers met a train, and when a tall, sunburned man stepped off the car they all grabbed him and shook his hand warmly. The man looked them over calmly and then said: "Gentlemen, I am sorry to disappoint you. I know you think I am a harvest hand, but you are mistaken. I am a light-ning rod agent."—Kansas City Star.

Starch, like everything else, is being constantly improved, the patent Starches put on the market 25 years ago are very different and inferior to those of the present day. In the latest discovery—Defiance Starch—all injurious chemicals are omitted, while the addition of another ingredient, invented by us, gives to the Starch a strength and smoothness never approached by other brands.

### A Nice Sentence.

"You have a pleasant home and a bright fireside, with happy children sitting around it, haven't you?" said the judge.

"Yes, sir," said the prisoner, who thought he saw a way out of the difficulty.

"Well," said the judge, "if the happy children sit around the cheerful fireside until you return, they will stay there just 42 days."

Hold on, hope hard in the subtle things. That's spirit.—Pacchiariotto.

## What is Castoria.

**CASTORIA** is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhoea and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The children's Panacea—The Mother's Friend.

## Letters from Prominent Physicians addressed to Chas. H. Fletcher.

Dr. F. Gerald Blattner, of Buffalo, N. Y., says: "Your Castoria is good for children and I frequently prescribe it, always obtaining the desired results."

Dr. Gustave A. Elsenraeber, of St. Paul, Minn., says: "I have used your Castoria repeatedly in my practice with good results, and can recommend it as an excellent, mild and harmless remedy for children."

Dr. E. J. Dennis, of St. Louis, Mo., says: "I have used and prescribed your Castoria in my sanitarium and outside practice for a number of years and find it to be an excellent remedy for children."

Dr. S. A. Buchanan, of Philadelphia, Pa., says: "I have used your Castoria in the case of my own baby and find it pleasant to take, and have obtained excellent results from its use."

Dr. J. E. Simpson, of Chicago, Ill., says: "I have used your Castoria in cases of colic in children and have found it the best medicine of its kind on the market."

Dr. R. E. Eskildson, of Omaha, Neb., says: "I find your Castoria to be a standard family remedy. It is the best thing for infants and children I have ever known and I recommend it."

Dr. L. R. Robinson, of Kansas City, Mo., says: "Your Castoria certainly has merit. Is not its age, its continued use by mothers through all these years, and the many attempts to imitate it, sufficient recommendation? What can a physician add? Leave it to the mothers."

Dr. Edwin F. Pardee, of New York City, says: "For several years I have recommended your Castoria and shall always continue to do so, as it has invariably produced beneficial results."

Dr. N. B. Sizer, of Brooklyn, N. Y., says: "I object to what are called patent medicines, where maker alone knows what ingredients are put in them, but I know the formula of your Castoria and advise its use."

### SORE SHOULDERS

I would like very much to personally meet every reader of this paper who owns any horses that have sore shoulders and tell him about Security Gail Salve. This is impossible so I am going to tell you through the paper. You and I both know that horses working with sore shoulders are in pain, and that they can't do as much work without running down as when they are free from pain. I also know perfectly well that Security Gail Salve will cure these shoulders, but you don't know it. If you did you would buy a box of your dealer at once and cure them up, for you have no doubt often wished that you knew of something that could help you. You can rely absolutely on Security Gail Salve. It will do its work every time, or if you prefer to try it, I will mail you a sample can free. Just write for it—it will go to you on first mail.

Also I want to tell you that Security Antiseptic Healer is as good for barbed wire cuts as Security Gail Salve is for harness galls. Dealers carry them in 2c. and 10c. sizes. Use them for your needs; I guarantee you perfect satisfaction.

Security Gail Salve, J. J. Jennie, President, SECURITY REMEDY CO., Minneapolis, Minn.

### But He Was Gone.

"I tell you what," said the sad-looking man, "it's pretty hard for a man with a large family to live on a small income."

"Yes," eagerly agreed the stranger, "but it's a great deal harder for his family if he dies on one. Now, my line is insurance; let me interest you—Eh? What's your hurry?"

## SKIN DISEASES HUMORS IN THE BLOOD

When the blood is pure, fresh and healthy, the skin will be soft, smooth and free from blemishes, but when some acid humor takes root in the circulation its presence is manifested by a skin eruption or disease. These humors get into the blood, generally because of an inactive or sluggish condition of the members of the body whose duty it is to collect and carry off the waste and refuse matter of the system. This unhealthy matter is left to sour and ferment and soon the circulation becomes charged with the acid poison. The blood begins to throw off the humors and acids through the pores and glands of the skin, producing Eczema, Acne, Tetter, Psoriasis, Salt Rheum and skin eruptions of various kinds. Eczema appears, usually with a slight redness of the skin followed by pustules from which there flows a sticky fluid that dries and forms a crust, and the itching is intense. It is generally on the back, breast, face, arms and legs, though other parts of the body may be affected. In Tetter the skin dries, cracks and bleeds; the acid in the blood dries up the natural oils of the skin, which are intended to keep it soft and pliant, causing a dry, feverish condition and giving it a hard, leathery appearance. Acne makes its appearance on the face in the form of pimples and black heads, while Psoriasis comes in scaly patches on different parts of the body. One of the worst forms of skin trouble is Salt Rheum; its favorite point of attack is the scalp, sometimes causing baldness. Poison Oak and Ivy are also disagreeable types of skin disease. The humor producing the trouble lies dormant in the blood through the Winter to break out and torment the sufferer with the return of Spring. The best treatment for all skin diseases is S. S. S. It neutralizes the acids and removes the humors so that the skin instead of being irritated and diseased, is nourished by a supply of fresh, healthy blood. External applications of salves, washes, lotions, etc., while they soothe the itching caused by skin affections, can never cure the trouble because they do not reach the blood. S. S. S. goes down into the circulation and forces out every particle of foreign matter and restores the blood to its normal, pure condition, thereby permanently curing every form of skin affection. Book on Skin Diseases and any medical advice desired sent free to all who write. S. S. S. is for sale at all first class drug stores.

I suffered with Eczema for forty years and could find no relief. I suffered until I tried S. S. S. I suffered intensely with the itching and burning; pustules would form from which there flowed a sticky fluid; crusts would come on the skin and when scratched off the skin was left as raw as a piece of beef. I suffered agony in the long years I was afflicted, but when I used S. S. S. I found a perfect cure. There has never been any return of the trouble.

## PHYSICIAN DIES OF WOUNDS

**Dr. Coffee, of Stonewall, Succumbs to Stabs Inflicted by Fellow Physician -- Preliminary Trial Set for September 2.**

As a result of the knife wounds inflicted by his neighbor doctor Dr. Coffee of Stonewall died between 8 and 9 o'clock Wednesday night.

The assailant Dr. Gid Breco had been taken in custody the night before. After news of the death a charge of murder was promptly filed against him and his preliminary hearing has been set for Monday September 2.

The remains of Dr. Coffee arrived from Stonewall on this afternoon's train and were transferred to the prison to be shipped to his old Arkansas home.

It is undisputed that the trouble between these men Tuesday at Stonewall arose over a question of professional ethics.

On the theory that Dr. Breco was deliberately the aggressor in the tragedy and suspicious of certain symptoms developing during the twenty-four hours deceased lingered before death the government has ordered an examination of the fatal knife by experts in order to ascertain if poison had been designedly applied to the blade. It is said that Dr. Coffee made a fatal decision of a damaging nature concerning his antagonist.

It is reported that friction has existed for some time in Stonewall between Dr. Breco and his fellow physicians. One year and a half ago Dr. Breco came from Van Zandt county, Texas and located in Stonewall. He met his uncle and Ed Andrews his brother in law arrived to day from Texas called him on account of his trouble. Mr. Kraft has been district clerk of Van Zandt county many years and was a father to

Dr. Breco in his bringing up. The News man called upon Dr. Breco at the county jail this afternoon, enquiring if he had anything to say for publication. The doctor talked freely of the tragedy. His head was in bandage showing blood stains which he said came from wounds inflicted by Dr. Coffee before he had struck a blow. In substance the statement was:

Coffee had called upon Breco's patient and while there acted unprofessionally. Just previous to the difficulty I O Crawford proprietor of the drug store wherein it occurred reminded Breco of a bundle of surgical instruments he had left in the rear of the store. Breco's office was over the store. Around the instruments was wrapped a French news paper published in Canada a paper read by Dr. Breco's relatives (he himself is of French extraction). As he started out with the bundle in his hand he encountered Coffee mildly mentioned to him his recent unprofessional conduct whereupon Coffee became abusive and attacked Breco striking him over the head with some weapon. Then and not till then Breco it ticked Coffee using the bundle of instruments in his hand.

Dr. Runyan of Ada was called to Stonewall and helped dress the wounds of Dr. Coffee. When questioned by the News man as to his opinion about the presence of poison on the fatal weapon he scouted the idea. He believes that one of the knife wounds was so deep as to penetrate the apex of the heart so slightly is not to be ascertainable at first but in the course of hours caused death.

## HEARING ELECTION CONTESTS

**Burke Loses for State Insurance Commissioner -- Pontotoc's Vote Among Those Questioned -- Other Contests Being Heard.**

Cuthrie Aug. 25 -- The state election board today decided the contest of John D. Burke of Cuthrie vs. T. B. McComb of Oklahoma City democratic nominee for state insurance commissioner in McComb's favor holding that the board could not go behind the state democratic convention which declared McComb to be the regular nominee.

In contesting Burke by his attorney John Hildreth alleged numerous instances of fraud which if corrected would elect him by a majority of 476 over McComb. He cited figures as follows in attempting to prove that McComb was benefited by alleged illegal voting in the counties named:

In Pontotoc county 1589 democratic votes were cast at the delegate elec-

tion on November 6 last whereas at the democratic primaries on June 14 last there were 2768 votes cast or more than all parties cast at the delegate election.

In Jefferson the democrats cast 778 votes in November and 2768 in June or more than all parties in the delegate election.

In Murray county the democrats cast 900 votes in November and 1702 in June more than all parties in the November election.

In Stephens county they cast 1366 in November and 2191 in June. In Carter county 2312 in November and 3014 in June. In Bryan county 2611 in November and 3400 in June and in McClain county 1918 in November and 1266 in June.

### JUDGE E. G. WINN,

of Ada republican candidate for state senator 23rd district composed of the counties of Pontotoc and Seminole will speak in the interest of his candidacy at the following places and upon the dates set opposite thereto. An equal division of time will be granted his opponent, Hon. R. M. Riddle democratic nominee from said district who is respectfully invited to meet me. ### At New Bethel.

The most successful country Temperance rally of the campaign was held at New Bethel Wednesday evening. There is in progress there a revival, which is being conducted by Rev. Shirley and Rev. George. These men gave over their service to E. L. Kirtley and Carlton Weaver in the interest of state-wide prohibition, and each of these gentlemen discussed this question for two hours. The attendance was large and the interest still greater. At the conclusion of Mr. Weaver's address an expression was asked, concerning the congregation's attitude toward the prohibition issue and the entire audience stood up, with the possible exception of three men. There were about three hundred people present.

Ada people should ask their merchants for Electra and Sunray oils. They are better than the trust oils 128-1f

### Frisco Still Embarrassed.

Throughout the day (Thursday) Frisco trains continued to detour via Shawnee on account of the burning of the Canadian river bridge. Local officials say they do not know how long before the bridge will be repaired. All south bound trains are arriving hours behind schedule and people with urgent business at Francis are having to swing on to switch engines as they pick back and forth. The wreck on the siding by the ice plant is worse than thought. The switch engine was rescued last night and hauled to the shops but the wrecker crew are still yanking at the tender and coal car which tumbled into the ditch.

Burn Electra and Sunray oils. They are the best to be had 128-1f

### Itinerary of James W. Bolen.

The state democratic campaigning committee has assigned Hon. Jas. W. Bolen, of Ada, to the following speaking dates:

### Women Organize.

Mrs. Nannie Curtis of Sherman addressed the mass meeting for women at the Methodist church last afternoon. Her remarks were well received and there was considerable interest manifested.

She outlined the plans of organization and a number of committees were appointed the names and duties of which will be published at a later date.

The ponderous secretary of war, who was imported into Oklahoma to stampede the voters away from the constitution made one admission that makes Frantz and the republican platform look even more ridiculous than formally. Taft makes specific assaults upon the constitution, but he also specifically stated that there were some good things in the Oklahoma charter. Frantz and his staff of federal official cuckoos have been declaring that the whole document is "rotten" and his platform denounces it as a whole. Taft appears to have read a part of the constitution at least. But Frantz and his cuckoos, when cornered, admit that they are totally ignorant of its many splendid provisions.—Oklahoman

### Making Stars Go Out.

A high school teacher recently talked to her class of girls on Ideals, says the Youths companion. Here is a part of what she said, every line of which you should read and read again and taken seriously to heart.

It is hard for you girls to realize the subtle influence you have on boys of your own age and younger. They idolize you, they depend on you to be innocent, pure, good. You may shrug your shoulders and say that you don't care what this or that boy thinks of you, but you ought to care—and deeply—every time an ignoble act or careless word of yours robs anybody of an ideal which might have lighted him through dark places in his life but for you. He may act the same to you, but ah, how little forgiveness counts when a star goes out!

## TAFT REALIZES MISTAKE HE MADE

Kansas City, Aug. 29.—"I intended to make the matter plain, I discussed the constitution from a viewpoint of an Oklahoman citizen. I infer that Oklahomans thought I believed the president would veto the constitution, but I meant to convey the impression that he would in all probability approve it."

This statement was made by Secretary Taft after he had frequent unfavorable comments on what the people believed was the meaning of his Oklahoma City speech in criticism of the Constitution. They became so frequent that the secretary deemed an explanation advisable.

**Justice and Sanity.**

There has been a great deal said about the unwritten law, and it is held by many thinking people to justify murder which is indefensible. True, life may be taken at times in self-protection without violating divine or human law, but for a deliberate homicide there is no excuse whatever. It is, of course, exasperating almost beyond endurance to have the home despoiled by a conscienceless monster who bears the guise of man, but courts should deal with him in a civilized community and give him his deserved punishment. When a man takes the law into his own hands and puts an end, with malice aforethought, to one of his fellow beings, he is simply a barbarian, no matter what cause he has for his bloody deed. The young man who slew the supposed wronger of his sister in this city, says the Boston Budget, received a just sentence, though there is sorrow that he should have thrown away his young manhood to become a perpetual prisoner, but his punishment, though severe, was deserved, and it will act as a deterrent on other impulsive young men of fiery southern blood, who might be tempted to follow in his unfortunate footsteps. The case of Judge Loving of Virginia, who was acquitted by a jury of the crime of murder partially, apparently, on the ground of sudden insanity, and partly, no doubt, through a reverence or regard for the unwritten law, is one in which it is widely believed strict justice was not meted out. In all probability, the young man who was shot to death by an irate father did not commit the deed of which he was at first suspected, but even if he did, his slayer, it seems to us, should have paid some penalty for his offence, and not have gone entirely unwhipped of justice. Then we have the story of a mother and son who confessed that they killed a young man because he refused to wed the daughter of one and the sister of the other, thereby breaking a solemn promise that he had made. This was, no doubt, maddening, but the provocation was no excuse for the homicidal act or a good moral reason for their acquittal. When brutes walk on two legs the law of the land, as has been well said, does not allow us to butcher them, and the sooner this is realized by those who claim the unwritten law as a defense the sooner shall we have a return to sanity in the treatment of assassins.

No department of government, certainly none represented in the president's cabinet, is less open to partisan political criticism than the department of agriculture. Sometimes there is a hubbub about free seeds, for which congress and not the department is responsible. Beyond that the complaints are few and the blessings are many. Secretary Wilson says that during the fiscal year just ended the department has made discoveries which will benefit the American people to the extent of millions of dollars—a sum too vast to calculate. Some of these discoveries are patentable, and if the patents were held by the discoverers would make them rich. But all such patents, after being taken out in the name of the inventors, are dedicated to the United States for the common good.

Congress having provided for an increase in the artillery force of the army, 27 new companies of coast artillery are to be formed. These will be stationed at various points along the Atlantic, the gulf and the Pacific. Experience has shown that more men were needed to care properly for the big guns in our forts. The additional companies, with the national guard organizations, which have had very successful tours of duty at the forts, will serve to obviate danger in case of an emergency. The country will have both the guns and the men needed.

Electricity continues to extend its usefulness. New Jersey has found it the most expeditious and humane means of putting an end to stray and useless dogs. Hitherto the dogs have been asphyxiated in a big gas tank. But the society which looks after such things finds this is cruel and by no means infallible. So Plainfield leads off by substituting the electric kennel for the gas receptacle. By this means the canines are sent painlessly and swiftly to death and the how-woos cease from spreading fear of rabies.

A Methodist minister has protested against the use of the Sunday service as a practice hour for students in shorthand, who go to church merely to take down the sermon. It does seem a double offense to break the Sabbath in church.

The presentation of the cross of the Legion of Honor to the composer of "Salome," the opera which shocked New York, will emphasize an impression that the legion is getting to be a somewhat mixed company.

**Jack London's Story Carries Sting of Truth and Pathos.**

"Jack London's famous definition of charity—'sharing a bone with a dog when you're as hungry as the dog'—recalls a story about charity," said a magazine editor, "that I heard Mr. London tell at a farewell dinner in New York before he sailed away on the Spark."

"Mr. London said two old men were smoking and drinking together after dinner."

"The host rang the bell and an old woman appeared."

"'Confound you, stupid!' said the host. 'Didn't I tell you I wanted the Scotch? Take this back, and bring what I asked for, you old fool!'"

"'Come, come,' said the guest, after the old woman had hurried away in a great fright. 'Come, come, my friend, don't you think you are rather too sharp with your old servant?'"

"'Oh,' said the other, 'she's not a servant. She's only a poor relation I'm keeping out of charity.'"

"The guest looked relieved."

"That alters the case, of course," he said.—"Washington Times."

**It Will Stay There.**

"In my family medicine chest no remedy is permitted to remain unless it proves beyond a doubt the best to be obtained for its particular purpose. For treating all manner of skin troubles, such as Eczema, Tetter, Ringworm, etc., Hunt's Cure has held its place for many years. I have failed to find a surer remedy. It cures itching instantly."

R. M. SWANN, Franklin, La.

**Social Rank.**

At a country dance in a southern town, when the fiddlers had resigned their bows and taken their places on the platform, the floor manager rose.

"Got yo' partners for a cotillion?" he shouted, imperiously.

"All you ladies an' gemmen take yo' places in de middle ob de room. All you ladies an' gemmen take yo' places shoes an' no stockings take yo' places immedjly behin' dem. An' you barefooted crowd jest jig it roun' in de corners."—"Youth's Companion."

Laundry work at home would be much more satisfactory if the right Starch were used. In order to get the desired stiffness, it is usually necessary to use so much starch that the beauty and fineness of the fabric is hidden behind a paste of varying thickness, which not only destroys the appearance, but also affects the wearing quality of the goods. This trouble can be entirely overcome by using Defiance Starch, as it can be applied much more thinly because of its greater strength than other makes.

**No Doubt About It.**

Kind Father—My dear, if you want a good husband, you just marry Mr. Goodbody. I am quite sure that he is really devoted to you.

The Girl—I am truly glad to hear you say so, papa. But are you quite, quite sure?

Kind Father—Positive my love, positive. I've been borrowing money of him for six months, and he still keeps coming here, so it's all right, it's all right. He loves you!

**For Twenty Years.**

Other chill remedies have sprung up, flourished for a brief season, then passed away—even from memory—but for twenty long years Cheatham's Chill Tonic has been in the field of action. The reason is simple. It has merit. It actually cures Chills and Fevers while the majority of others merely promise to. One bottle guaranteed to cure any one case.

**What Caused the Lynching.**

Out at Stafford the other day a group of farmers met a train, and when a tall, sunburned man stepped off the car they all grabbed him and shook his hand warmly. The man looked them over calmly and then said: "Gentlemen, I am sorry to disappoint you. I know you think I am a harvest hand, but you are mistaken. I am a lightning rod agent."—"Kansas City Star."

Starch, like everything else, is being constantly improved, the patent Starches put on the market 25 years ago are very different and inferior to those of the present day. In the latest discovery—Defiance Starch—all injurious chemicals are omitted, while the addition of another ingredient, invented by us, gives to the Starch a strength and smoothness never approached by other brands.

**A Nice Sentence.**

"You have a pleasant home and a bright fireside, with happy children sitting around it, haven't you?" said the judge.

"Yes, sir," said the prisoner, who thought he saw a way out of the difficulty.

"Well," said the judge, "if the happy children sit around the cheerful fireside until you return, they will stay there just 42 days."

Hold on, hope hard in the subtle things. That's spirit—Panchiarotto.

**Letters from Prominent Physicians addressed to Chas. H. Fletcher.**

Dr. F. Gerald Blattner, of Buffalo, N. Y., says: "Your Castoria is good for children and I frequently prescribe it, always obtaining the desired results."

Dr. Gustave A. Eisengraeber, of St. Paul, Minn., says: "I have used your Castoria repeatedly in my practice with good results, and can recommend it as an excellent, mild and harmless remedy for children."

Dr. E. J. Dennis, of St. Louis, Mo., says: "I have used and prescribed your Castoria in my sanitarium and outside practice for a number of years and find it to be an excellent remedy for children."

Dr. S. A. Buchanan, of Philadelphia, Pa., says: "I have used your Castoria in the case of my own baby and find it pleasant to take, and have obtained excellent results from its use."

Dr. J. E. Simpson, of Chicago, Ill., says: "I have used your Castoria in cases of colic in children and have found it the best medicine of its kind on the market."

Dr. R. E. Eskildson, of Omaha, Neb., says: "I find your Castoria to be a standard family remedy. It is the best thing for infants and children I have ever known and I recommend it."

Dr. L. R. Robinson, of Kansas City, Mo., says: "Your Castoria certainly has merit. Is not its age, its continued use by mothers through all these years, and the many attempts to imitate it, sufficient recommendation? What can a physician add? Leave it to the mothers."

Dr. Edwin F. Pardee, of New York City, says: "For several years I have recommended your Castoria and shall always continue to do so, as it has invariably produced beneficial results."

Dr. N. B. Sizer, of Brooklyn, N. Y., says: "I object to what are called patent medicines, whose maker alone knows what ingredients are put in them, but I know the formula of your Castoria and advise its use."

**SKIN DISEASES**

**HUMORS IN THE BLOOD**

When the blood is pure, fresh and healthy, the skin will be soft, smooth and free from blemishes, but when some acid humor takes root in the circulation its presence is manifested by a skin eruption or disease. These humors get into the blood, generally because of an inactive or sluggish condition of the members of the body whose duty it is to collect and carry off the waste and refuse matter of the system. This unhealthy matter is left to sour and ferment and soon the circulation becomes charged with the acid poison. The blood begins to throw off the humors and acids through the pores and glands of the skin, producing Eczema, Acne, Tetter, Psoriasis, Salt Rheum and skin eruptions of various kinds. Eczema appears, usually with a slight redness of the skin followed by pustules from which there flows a sticky fluid that dries and forms a crust, and the itching is intense. It is generally on the back, breast, face, arms and legs, though other parts of the body may be affected. In Tetter the skin dries, cracks and bleeds; the acid in the blood dries up the natural oils of the skin, which are intended to keep it soft and pliant, causing a dry, feverish condition and giving it a hard, leathery appearance. Acne makes its appearance on the face in the form of pimples and black heads, while Psoriasis comes in scaly patches on different parts of the body. One of the worst forms of skin trouble is Salt Rheum; its favorite point of attack is the scalp, sometimes causing baldness. Poison Oak and Ivy are also disagreeable types of skin disease. The humor producing the trouble lies dormant in the blood through the winter to break out and torment the sufferer with the return of Spring. The best treatment for all skin diseases is S. S. S. It neutralizes the acids and removes the humors so that the skin instead of being irritated and diseased, is nourished by a supply of fresh, healthy blood. External applications of salves, washes, lotions, etc., while they soothe the itching caused by skin affections, can never cure the trouble because they do not reach the blood. S. S. S. goes down into the circulation and forces out every particle of foreign matter and restores the blood to its normal, pure condition, thereby permanently curing every form of skin affection. Book on Skin Diseases and any medical advice desired sent free to all who write. S. S. S. is for sale at all first class drug stores.

## PHYSICIAN DIES OF WOUNDS

**Dr. Coffee, of Stonewall, Succumbs to Stabs Inflicted by Fellow Physician -- Preliminary Trial Set for September 2.**

As a result of the knife wounds inflicted by his neighbor doctor Dr. Coffee of Stonewall died between 8 and 9 o'clock Wednesday night

The assailant Dr. Gid Breco had been taken in custody the night before. After news of the death a charge of murder was promptly filed against him and his preliminary hearing has been set for Monday September 2

The remains of Dr. Coffee arrived from Stonewall on this afternoon's train and were transferred to the prison to be shipped to his old Arkansas home

It is undisputed that the trouble between these men Tuesday at Stonewall arose over a question of professional ethics

On the theory that Dr. Breco was deliberately the aggressor in the tragedy and suspicious of certain symptoms developing during the twenty-four hours deceased lingered before death the government has ordered an examination of the fatal knife by experts in order to ascertain if poison had been designedly applied to the blade. It is said that Dr. Coffee made a fatal declaration of a damaging nature concerning his antagonist

It is reported that friction has existed for some time in Stonewall between Dr. Breco and his fellow physicians. One year and a half ago Dr. Breco came from Van Zandt county, Texas and located in Stonewall. He had left his uncle and Dr. Anderson his brother in law arrived to day from Texas called him on account of his trouble. Mr. Pratt has been district clerk of Van Zandt county many years and was a father to

Dr. Breco in his bringing up. The News man called upon Dr. Breco at the county jail this afternoon, enquiring if he had anything to say for publication. The doctor talked freely of the tragedy. His head was in bandage showing blood stains which he said came from wounds inflicted by Dr. Coffee before he had struck a blow. In substance the statement was

Coffee had called upon Breco's patient and while there acted unprofessionally. Just previous to the difficulty I O Crawford proprietor of the drug store wherein it occurred reminded Breco of a bundle of surgical instruments he had left in the rear of the store. Breco's office was over the store. Around the instruments was wrapped a French news paper published in Canada a paper read by Dr. Breco's relatives (he himself is of French extraction). As he started out with the bundle in his hand he encountered Coffee mildly mentioned to him his recent unprofessional conduct whereupon Coffee became abusive and attacked Breco striking him over the head with some weapon. Then and not till then Breco it ticked Coffee using the bundle of instruments in his hand

Dr. Ruman of Ada was called to Stonewall and helped dress the wounds of Dr. Coffee. When questioned by the News man as to his opinion about the presence of poison on the fatal weapon he scouted the idea. He believes that one of the knife wounds was so deep as to penetrate the apex of the heart so slightly as not to be ascertainable at first but in the course of hours caused death

## HEARING ELECTION CONTESTS

**Burke Loses for State Insurance Commissioner -- Pontotoc's Vote Among Those Questioned -- Other Contests Being Heard.**

Cuthrie Aug 28 -- The state election board today decided the contest of John D. Burke of Cuthrie vs. J. B. McComb of Oklahoma City's democratic nominee for state insurance commissioner in McComb's favor holding that the board could not go behind the state democratic convention which declared McComb to be the regular nominee

In contesting Burke by his attorney John Hildrich alleged numerous instances of fraud which if corrected would elect him by a majority of 176 over McComb. He cited figures as follows in attempting to prove that McComb was benefited by alleged illegal voting in the counties named

In Pontotoc county 1 569 democratic votes were cast at the delegate election

on November 6 last whereas at the democratic primaries on June 14 last there were 2 768 votes cast or more than all parties cast at the delegate election

In Jefferson the democrats cast 778 votes in November and 2 768 in June or more than all parties in the delegate election

In Murray county the democrats cast 300 votes in November and 1 702 in June more than all parties in the November election

In Stephens county they cast 1 986 in November and 2 101 in June. In Carter county 2 312 in November and 3 014 in June. In Bryan county 2 811 in November and 3 400 in June and in McClain county 1 018 in November and 1 265 in June

**GIDDINGS WILL SPEAK.**  
It is announced today from democratic state headquarters that Hon. E. J. Giddings, of Oklahoma City, will speak in Ada Thursday night.

The meeting will probably be held in the open air, and Geo. Thompson, chairman of the county committee, says the county democratic nominees, now out in the country, will all be present and make brief addresses to the voters. Also a democratic club will be organized.

A big time for democracy is vouchsafed. Everybody should be on hand. Mr. Giddings is a gifted orator. 136-2t

REPUBLICANS AN PROHIBITION.

As a sample of republican duplicity and moral cowardice when it comes to meeting the vital issues of this campaign the following inside history of the Tulsa convention, obtained from one of the most able and active members of the resolutions committee, is very much to the point and illustrates most clearly the floundering policy and insincere attitude of the present leaders and carpet bag cohorts of the "rule or ruin" gang that are demanding the state offices as the price of statehood.

The Tulsa platform was drawn in the main by Frank Greer who had incorporated in his draft of that instrument the following plank on local option or prohibition at the request of the anti-prohibition leaders:

"17. We favor prohibition where demanded by the people of any community. Local option has proven by years of experience to be the highest form of prohibition, promoting the truest temperance. All laws are forced by local municipalities within the state and their strict enforcement depends on the sentiment of the people of the locality. We therefore oppose the separate prohibition clause as submitted with the present constitution. Let the people of each community attend to the matters purely local. As the states are the better custodians than the federal government of interests wholly within the state, so the people of the county are the best custodians of county interests, and the people of a precinct are the best custodian of precinct interests. We declare for local option and believe the same laws and regulations should be made to apply to the whole state as soon as possible by every honorable means, with full faith and confidence in the wisdom of the people to properly govern themselves."

After strenuous debate and on the insistent demand of ex-Governor Ferguson, and Eldr McGuire, candidates for congress, and at the urgent request of Governor Frantz the clause was stricken out by a vote of 23 to 25 and the republican platform was left wholly silent on this important question.

For days before the convention met the anti prohibitionists were hopefully boasting that such a plank would be in the platform—and they had been promised by the leaders that it would be—but the pleasure of the candidates who had staked their solemn hopes of an election on their ability in dodging the live issues were too strong and those thirty-three members of the committee on resolutions were able as a result to keep that great convention of nearly 1,600 delegates from expressing an opinion either way on the question of state-wide prohibition.

The logical deduction from this action of the committee is that the republicans, as a party, has no convictions on this question which has aroused the most bitter antagonism between the prohibition and local option partisans and which has been submitted to the people for a decision. The elimination of this plank from their platform stamps the present leaders of that party as wholly insincere and cowardly when it comes to dealing with political or moral propositions that require stamina and principle to decide. Their attempt to curry favor with both sides of this great question they have only succeeded by their cowardice and double dealing in offending and disgusting everybody.

side of the prohibition controversy. No one believes now that he has any sincere convictions on this or any other subject at issue before the people, and all parties are suspicious of him. **A Race that Trote.**  
In the island of Tierra del Fuego, off the southern most point of South America, there lives a fine athletic race called the Onas. The men are over six feet high, and the women are also well built. What is strange about them is that they never walk, but are always on the trot. The men hunt the guanaco (an animal like the llama) and the sea, or South American ostrich, on foot, bringing them down with arrows or slung stones. A story is told of a European settler who once captured an Ona woman in a raid and took her to the nearest mission station, twenty-eight miles distant. She ran, with her boy on her back, along side her captor's horse all the way, being prevented from bolting by a lasso around her hand. When the ground was too uneven for the horse to trot she shot ahead with the lasso at full stretch.

**A Face Tragedy.**  
Milwaukee Sentinel.  
"Did you notice Tillie's face today?"  
"No. What about it."  
"Her powder bag exploded."

Col Chas. Hunter's committee has evidently concluded this time that no matter which horn Governor Frantz takes of the prohibition dilemma he is bound to make a mess of it. Whether he admits, as he did at Wilburton, that he is going to vote against the kind of prohibition for Oklahoma that his party fastened up on Indian Territory in the Enabling act, or whether he does as he did at Thomas and as the republican convention did at Tulsa—ignore and evade it—he cannot now satisfy his own party or the partisans of either

### At New Bethel.

The most successful country Temperance rally of the campaign was held at New Bethel Wednesday evening. There is in progress there a revival, which is being conducted by Rev. Shirley and Rev. George. These men gave over their service to E. L. Kirtley and Carlton Weaver in the interest of state-wide prohibition, and each of these gentlemen discussed this question for two hours. The attendance was large and the interest still greater. At the conclusion of Mr. Weaver's address an expression was asked, concerning the congregation's attitude toward the prohibition issue and the entire audience stood up, with the possible exception of three men. There were about three hundred people present.

Ada people should ask their merchants for Electra and Sunray oils. They are better than the trust oils 128-17

### Finco Still Embarrassed.

Throughout the day (Thursday) Finco trains continued to detour via Shawnee on account of the burning of the Canadian river bridge. Local officials say they do not know how long before the bridge will be repaired. All south bound trains are arriving hours behind schedule and people with urgent business at Francis are having to swing on to switch engines as they pick back and forth.

The wreck on the siding by the ice plant is worse than thought. The switch engine was resined last night and hauled to the shops, but the wrecker crew are still yanking at the tender and coal car which tumbled into the ditch.

Burn Electra and Sunray oils. They are the best to be had 128-17

### Itinerary of James W. Bolen.

The ponderous secretary of war, who was imported into Oklahoma to stampede the voters away from the constitution made one admission that makes Frantz and the republican platform look even more ridiculous than formally. Taft makes specific assaults upon the constitution, but he also specifically stated that there were some good things in the Oklahoma charter. Frantz and his staff of federal official cuckoos have been declaring that the whole document is "rotten" and his platform denounces it as a whole. Taft appears to have read a part of the constitution at least, but Frantz and his cuckoos, when cornered, admit that they are totally ignorant of its many splendid provisions—Oklahomans.

### Making Stars Go Out.

A high school teacher recently talked to her class of girls on Ideals, says the Youth's companion. Here is a part of what she said, every line of which you should read and read again and taken seriously to heart.

It is hard for you girls to realize the subtle influence you have on boys of your own age and younger. They idolize you, they depend on you to be innocent, pure, good. You may shrug your shoulders and say that you don't care what this or that boy thinks of you, but you ought to care—and deeply—every time an ignoble act or careless word of yours robs anybody of an ideal which might have lighted him through dark places in his life but for you. He may act the same to you, but ah, 'How little forgiveness counts when a star goes out!' 'Girls, are you making stars go out?'

## TAFT REALIZES MISTAKE HE MADE

Kansas City, Aug. 29.—"I intended to make the matter plain, I discussed the constitution from a viewpoint of an Oklahoman citizen. I infer that Oklahomans thought I believed the president would veto the constitution, but I meant to convey the impression that he would in all probability approve it."

This statement was made by Secretary Taft after he had frequent unfavorable comments on what the people believed was the meaning of his Oklahoma City speech in criticism of the Constitution. They became so frequent that the secretary deemed an explanation advisable.

**Justice and Sanity.**

There has been a great deal said about the unwritten law, and it is held by many thinking people to justify murder which is indefensible. True, life may be taken at times in self-protection without violating divine or human law, but for a deliberate homicide there is no excuse whatever. It is, of course, exasperating almost beyond endurance to have the home despoiled by a conscienceless monster who bears the guise of man, but courts should deal with him in a civilized community and give him his deserved punishment. When a man takes the law into his own hands and puts an end, with malice aforethought, to one of his fellow beings, he is simply a barbarian, no matter what cause he has for his bloody deed. The young man who slew the supposed wronger of his sister in this city, says the Boston Budget, received a just sentence, though there is sorrow that he should have thrown away his young manhood to become a perpetual prisoner, but his punishment, though severe, was deserved, and it will act as a deterrent on other impulsive young men of fiery southern blood, who might be tempted to follow in his unfortunate footsteps. The case of Judge Loving of Virginia, who was acquitted by a jury of the crime of murder partially, apparently, on the ground of sudden insanity, and partly, no doubt, through a reverence or regard for the unwritten law, is one in which it is widely believed strict justice was not meted out. In all probability, the young man who was shot to death by an irate father did not commit the deed of which he was at first suspected, but even if he did, his slayer, it seems to us, should have paid some penalty for his offense, and not have gone entirely unwhipped of justice. Then we have the story of a mother and son who confessed that they killed a young man because he refused to wed the daughter of one and the sister of the other, thereby breaking a solemn promise that he had made. This was, no doubt, maddening, but the provocation was no excuse for the homicidal act or a good moral reason for their acquittal. When brutes walk on two legs the law of the land, as has been well said, does not allow us to butcher them, and the sooner this is realized by those who claim the unwritten law as a defense the sooner shall we have a return to sanity in the treatment of assassins.

No department of government, certainly none represented in the president's cabinet, is less open to partisan political criticism than the department of agriculture. Sometimes there is a hubbub about free seeds, for which congress and not the department is responsible. Beyond that the complaints are few and the blessings are many. Secretary Wilson says that during the fiscal year just ended the department has made discoveries which will benefit the American people to the extent of millions of dollars—a sum too vast to calculate. Some of these discoveries are patentable, and if the patents were held by the discoverers would make them rich. But all such patents, after being taken out in the name of the inventors, are dedicated to the United States for the common good.

Congress having provided for an increase in the artillery force of the army, 27 new companies of coast artillery are to be formed. These will be stationed at various points along the Atlantic, the gulf and the Pacific. Experience has shown that more men were needed to care properly for the big guns in our forts. The additional companies, with the national guard organizations, which have had very successful tours of duty at the forts, will serve to obviate danger in case of an emergency. The country will have both the guns and the men needed.

Electricity continues to extend its usefulness. New Jersey has found it the most expeditious and humane means of putting an end to stray and useless dogs. Hitherto the dogs have been asphyxiated in a big gas tank. But the society which looks after such things finds this is cruel and by no means infallible. So plainfield leads off by substituting the electric kennel for the gas receptacle. By this means the canines are sent painlessly and swiftly to death and the how-ows cease from spreading fear of rabies.

A Methodist minister has protested against the use of the Sunday service as a practice hour for students in shorthand, who go to church merely to take down the sermon. It does seem a double offense to break the Sabbath in church.

The presentation of the cross of the Legion of Honor to the composer of "Salome," the opera which shocked New York, will emphasize an impression that the legion is getting to be a somewhat mixed company.

# IN THE NAME OF CHARITY.

Jack London's Story Carries Sting of Truth and Pathos.

"Jack London's famous definition of charity—sharing a bone with a dog when you're as hungry as the dog"—recalls a story about charity," said a magazine editor, "that I heard Mr. London tell at a farewell dinner in New York before he sailed away on the Spark."

"Mr. London said two old men were smoking and drinking together after dinner."

"The host rang the bell and an old woman appeared."

"'Confound you, stupid!' said the host. 'Didn't I tell you I wanted the Scotch? Take this back, and bring what I asked for, you old fool!'"

"'Come, come,' said the guest, after the old woman had hurried away in a great fright. 'Come, come, my friend, don't you think you are rather too sharp with your old servant?'"

"'Oh,' said the other, 'she's not a servant. She's only a poor relation I'm keeping out of charity.'"

"The guest looked relieved."

"'That alters the case, of course,' he said."—Washington Times.

**It Will Stay There.**

"In my family medicine chest no remedy is permitted to remain unless it proves beyond a doubt the best to be obtained for its particular purpose. For treating all manner of skin troubles, such as Eczema, Tetter, Ringworm, etc., Hunt's Cure has held its place for many years. I have failed to find a surer remedy. It cures itching instantly."

R. M. SWANN, Franklin, La.

At a country dance in a southern town, when the fiddlers had resigned their bows and taken their places on the platform, the floor manager rose.

"Got yo' partners for a cotillion?" he shouted, imperiously.

"All you ladies an' gemmen dat wears shoes an' stockings take yo' places in de middle ob de room. All you ladies an' gemmen dat wears shoes an' no stockings take yo' places immejitly behin' dem. An' yo' barefooted crowd jest jig it rovin' in de corners."—Youth's Companion.

Laundry work at home would be much more satisfactory if the right Starch were used. In order to get the desired stiffness, it is usually necessary to use so much starch that the beauty and fineness of the fabric is hidden behind a paste of varying thickness, which not only destroys the appearance, but also affects the wearing quality of the goods. This trouble can be entirely overcome by using Defiance Starch, as it can be applied much more thinly because of its greater strength than other makes.

**No Doubt About It.**

Kind Father—My dear, if you want a good husband, you just marry Mr. Goodbody. I am quite sure that he is really devoted to you.

The Girl—I am truly glad to hear you say so, papa. But are you quite, quite sure?

Kind Father—Positive my love, positive. I've been borrowing money of him for six months, and he still keeps coming here, so it's all right, it's all right. He loves you!

**For Twenty Years.**

Other chill remedies have sprung up, flourished for a brief season, then passed away—even from memory—but for twenty long years Cheatham's Chill Tonic has been in the field of action. The reason is simple. It has merit. It actually cures Chills and Fevers while the majority of others merely promise to. One bottle guaranteed to cure any one case.

**What Caused the Lynching.**

Out at Stafford the other day a group of farmers met a train, and when a tall, sunburned man stepped off the car they all grabbed him and shook his hand warmly. The man looked them over calmly and then said: "Gentlemen, I am sorry to disappoint you. I know you think I am a harvest hand, but you are mistaken. I am a light-ning rod agent."—Kansas City Star.

Starch, like everything else, is being constantly improved, the patent Starches put on the market 25 years ago are very different and inferior to those of the present day. In the latest discovery—Defiance Starch—all injurious chemicals are omitted, while the addition of another ingredient, invented by us, gives to the Starch a strength and smoothness never approached by other brands.

**A Nice Sentence.**

"You have a pleasant home and a bright fireside, with happy children sitting around it, haven't you?" said the judge.

"Yes, sir," said the prisoner, who thought he saw a way out of the difficulty.

"Well," said the judge, "if the happy children sit around the cheerful fireside until you return, they will stay there just 42 days."

# Letters from Prominent Physicians addressed to Chas. H. Fletcher.

Dr. F. Gerald Blattner, of Buffalo, N. Y., says: "Your Castoria is good for children and I frequently prescribe it, always obtaining the desired results."

Dr. Gustave A. Eisengraeber, of St. Paul, Minn., says: "I have used your Castoria repeatedly in my practice with good results, and can recommend it as an excellent, mild and harmless remedy for children."

Dr. E. J. Dennis, of St. Louis, Mo., says: "I have used and prescribed your Castoria in my sanitarium and outside practice for a number of years and find it to be an excellent remedy for children."

Dr. S. A. Buchanan, of Philadelphia, Pa., says: "I have used your Castoria in the case of my own baby and find it pleasant to take, and have obtained excellent results from its use."

Dr. J. B. Simpson, of Chicago, Ill., says: "I have used your Castoria in cases of colic in children and have found it the best medicine of its kind on the market."

Dr. R. H. Eskildsen, of Omaha, Neb., says: "I find your Castoria to be a standard family remedy. It is the best thing for infants and children I have ever known and I recommend it."

Dr. L. R. Robinson, of Kansas City, Mo., says: "Your Castoria certainly has merit. Is not its age, its continued use by mothers through all these years, and the many attempts to imitate it, sufficient recommendation? What can a physician add? Leave it to the mothers."

Dr. Edwin F. Pardee, of New York City, says: "For several years I have recommended your Castoria and shall always continue to do so, as it has invariably produced beneficial results."

Dr. N. B. Sizer, of Brooklyn, N. Y., says: "I object to what are called patent medicines, where maker alone knows what ingredients are put in them, but I know the formula of your Castoria and advise its use."

**SORE SHOULDERS**

I would like very much to personally meet every reader of this paper who has a sore shoulder. I have a remedy for it. It is called Security Oil. This is impossible to tell you to tell you. You and I both know that horses working with sore shoulders are in pain and that they can't do as much work without running down as when they are free from pain. I also know perfectly well that Security Oil will cure sore shoulders, but you do not know it. If you did you would buy a box of your dealer at once and cure them up, for you have no doubt often wished that you knew of something you could rely on. You can rely absolutely on Security Oil. Write me at once for a sample, or if you prefer to try it first, I will mail you a sample can free. Just write for it—it will go to you in five days.

Also I want to tell you that Security Antiseptic is as good for sore throats and sore eyes as it is for sore shoulders. Use them for your needs; I guarantee satisfaction.

**But He Was Gone.**

"I tell you what," said the sad-looking man, "it's pretty hard for a man with a large family to live on a small income."

"Yes," eagerly agreed the stranger, "but it's a great deal harder for his family if he dies on one. Now, my line is insurance; let me interest you—Eh? What's your hurry?"

# SKIN DISEASES HUMORS IN THE BLOOD

When the blood is pure, fresh and healthy, the skin will be soft, smooth and free from blemishes, but when some acid humor takes root in the circulation its presence is manifested by a skin eruption or disease. These humors get into the blood, generally because of an inactive or sluggish condition of the members of the body whose duty it is to collect and carry off the waste and refuse matter of the system. This unhealthy matter is left to sour and ferment and soon the circulation becomes charged with the acid poison. The blood begins to throw off the humors and acids through the pores and glands of the skin, producing Eczema, Acne, Tetter, Psoriasis, Salt Rheum and skin eruptions of various kinds. Eczema appears, usually with a slight redness of the skin followed by pustules from which there flows a sticky fluid that dries and forms a crust, and the itching is intense. It is generally on the back, breast, face, arms and legs, though other parts of the body may be affected. In Tetter the skin dries, cracks and bleeds; the acid in the blood dries up the natural oils of the skin, which are intended to keep it soft and pliant, causing a dry, feverish condition and giving it a hard, leathery appearance. Acne makes its appearance on the face in the form of pimples and black heads, while Psoriasis comes in scaly patches on different parts of the body. One of the worst forms of skin trouble is Salt Rheum; its favorite point of attack is the scalp, sometimes causing baldness. Poison Oak and Ivy are also disagreeable types of skin disease. The humor producing the trouble lies dormant in the blood through the Winter to break out and torment the sufferer with the return of Spring. The best treatment for all skin diseases is S. S. S. It neutralizes the acids and removes the humors so that the skin instead of being irritated and diseased, is nourished by a supply of fresh, healthy blood. External applications of salves, washes, lotions, etc., while they soothe the itching caused by skin affections, can never cure the trouble because they do not reach the blood. S. S. S. goes down into the circulation and forces out every particle of foreign matter and restores the blood to its normal, pure condition, thereby permanently curing every form of skin affection. Book on Skin Diseases and any medical advice desired sent free to all who write. S. S. S. is for sale at all first class drug stores.
